Master of Science in Reproductive Science and Medicine
A Degree Program Focusing on Human Reproductive Health

Program Director: Teresa K. Woodruff, PhD
Director of Graduate Studies: Elizabeth Sefton, PhD

The Master of Science in Reproductive Science and Medicine (MS-RSM) is a full-time, terminal Master of Science degree focusing on human reproductive biology and medicine. We offer thesis and non-thesis tracks to meet the needs of our applicants and their professional goals. The mission of the MS-RSM program is to provide fundamental reproductive science training with a focus on applications to human health.

Within this invigorating environment, students will:

• Gain practical experience with state-of-the-art techniques in reproductive health and medicine, such as micromanipulation, microinjection, and follicle culture
• Interact and train with clinical, basic, and translational science leaders in the field of human reproductive science and medicine
• Prepare for research and technical careers in academic, clinical, and pharmaceutical laboratories

Apply Now
Submit your application: [http://www.tgs.northwestern.edu/admission/index.html](http://www.tgs.northwestern.edu/admission/index.html)

Two letters of recommendation, CV, unofficial transcripts, and a personal statement are required to apply. TOEFL or IELTS scores are required for international students.

Early decision deadline: Friday, January 19, 2018
Final deadline: Monday, April 30, 2018
